## The Charles E. Holman Morgellons Disease Foundation

The **Charles E. Holman Morgellons Disease Foundation** in collaboration with the **BCA-clinic** presents:

### 1. Annual European Medical-Scientific Conference on Morgellons Disease

**20<sup>th</sup> October 2018, Augsburg, Germany**

Morgellons disease is a bizarre skin condition associated with tickborne disease. It is characterised by disfiguring skin lesions containing multicoloured filaments, often accompanied by fatigue, joint and muscle pain and neurological problems.

We proudly present the following speakers:

- **Cindy Casey-Holman, RN Director of CEHMDF**
- **Ginger Savely, DNP, MSN, Med, FNP**
- **Carlo Maria Mortellaro, DVM, Prof. of Veterinary Surgical Pathophysiology**
- **Marianne Middelveen, MS, MDes**
- **Carsten Nicolaus, MD, PhD, Director and Founder of BCA-clinic**
- **Jenna Luche-Thayer, Consulting Senior Advisor – US Government, United Nations, non-profits, corporate social responsibility programs**

Expect the latest on Morgellons disease including updates on diagnosis, treatment and research.
