

## Deutsche Akkreditierungsstelle GmbH

### Annex to the Accreditation Certificate D-ML-18406-01-00 accordance with DIN EN ISO 15189:2014

**Period of validity: 13.07.2018 to 12.07.2023**

**Date of issue: 13.07.2018**

Holder of certificate:

**BCA-clinic Betriebs GmbH & Co.KG**  
**BCA-lab**  
**Morellstr.33, 86159 Augsburg**

**Examinations in the fields:**

Medical Laboratory Diagnostics

**Examinations areas:**

Clinical Chemistry  
Immunology  
Microbiology  
Virology

For the test methods marked with \*, the laboratory is permitted to freely select standard test methods or equivalent methods without obtaining prior notification and consent from Deutsche Akkreditierungsstelle GmbH (DAkkS GmbH). The test methods listed are given by way of an example. The laboratory has an up-to-date list of all test methods within the flexible scope of accreditation.

### Analytical Field: Clinical Chemistry

**Type of Test:**

**Flow cytometry**

Analyt (Measurand)	Test material (Matrix)	Technique of examination
blood count	EDTA-, heparin-blood	Flow cytometry

**Type of Test:**

**Qualitative tests (simple) with visual check**

Analyt (Measurand)	Test material (Matrix)	Technique of examination
Troponin	hole blood, serum, EDTA-, heparin-plasma	Quick test for qualitative detection

**Type of Test:**

**Sedimentation tests**

Analyt (Measurand)	Test material (Matrix)	Technique of examination
erythrocyte sedimentation rate	sodium citrate blood	Sedimentation

### Analytical Field: Immunology

**Type of Test:**

**Flow Cytometry**

Analyt (Measurand)	Test material (Matrix)	Technique of examination
Immune status	EDTA-, heparin-blood	Flow cytometry
CD16, CD57, CD4, CD8, CD19, CD45, CD56, Anti-HLA-DRPE, CD5, CD3	EDTA-, heparin-blood	Flow cytometry

### Analytical Field: Microbiology

**Type of Test:**

**Examination procedures: Ligand Assays\***

Analyt (Measurand)	Test material (Matrix)	Technique of examination
Toxoplasmosis IgM, IgG	serum, EDTA-, heparin-, citrate-plasma	ELISA
Chlamydia pneumoniae IgG, IgA,	serum, EDTA-, heparin-, citrate-plasma	ELISA
Chlamydia trachomatis IgG, IgA	serum, EDTA-, heparin-, citrate-plasma	ELISA
Mycoplasma pneumoniae IgG, IgA, IgM	serum, EDTA-, heparin-, citrate-plasma	ELISA
Yersinia enterocolitica IgA, IgG	serum, EDTA-, heparin-, citrate-plasma	ELISA
Lyme disease IgG, IgM	serum, EDTA-, heparin-, citrate-plasma	ELISA
Lyme disease IgG, IgM	serum, EDTA-, heparin-, citrate-plasma	Line Blot
